						Install ADA compliant strobes if and when replacing or rebuilding existing fire alarm system. Strobes should be installed in general public areas, including cafeterias, vending areas, retail pharmacies, gift shops, chapels, public restrooms, lobbies, waiting rooms, walkways and corridors, business office areas where the public is normally invited (e.g., cashier or personnel office for receipt of applications), conference rooms and classrooms open to the public, and enclosed dressing rooms. Strobes should not be installed in patient rooms (including restrooms in patient rooms), operating rooms, surgical suites and preparation areas, recovery rooms, areas where the patient is undergoing or recovering from anesthesia, emergency department examination and treatment rooms, ICU rooms and other special areas for admitted patients such as NICU or PACU, blood draw and laboratory areas, imaging rooms and diagnostic testing or procedure rooms, psychiatric wards generally, physical therapy training and rehabilitation areas to the extent supervised by medical personnel (except not if exercise areas or equipment are available for use by the general public), and other areas where admitted patients are under the supervision of facility personnel.
